Aspirations

As a 3rd-year Cybersecurity student, I aim to join a professional IT environment to enhance my technical skills, logical thinking, and practical experience. I seek opportunities to apply my knowledge as an IT intern and contribute value to the organization.

Prospect

With a strong sense of learning and responsibility, I aim to:

- Contribution: Support technical tasks, software testing, data processing, or system analysis to ensure team efficiency
- Self-Development: Improve technical expertise, master IT tools, and enhance teamwork and communication skills
- Long-Term Vision: Become a professional IT specialist, adaptable and impactful in technology projects.
